TECH CENTER 1600/2900

Dear sir,

My invention is a detector that has 3 functions, in this Amendment I found it more informative to describe each functional portion in a separate item rather than the previous describtion of the different parts of the invention where each part is shared by the 3 functions. This will make the amendments look different from the original although they are describing the same tobic.

Thank you

Mohamed khaled Mohamed El Hatw
